

September 2022

Dear Parents,

Welcome to 4th grade! I am so pleased and excited to have an opportunity to work with you and your child!

In order to help your scholar develop a love for learning, as well as improve their reading & math skills, I have planned engaging lessons that are hands-on, interesting, and relevant to the real world.

With that being said, parent involvement is very important. It is imperative that we work together to help your child reach their academic goals. You can do this by assisting with homework and by having your child read for 20 minutes a day. Another awesome way to support your scholar is to have him/her practice their reading skills daily using one of our online learning programs such as I-Ready.

Again, I am excited about the new school year! With your support and cooperation, I am positive that this will be a fun and successful school year, full of adventure and discovery!
